Applicant's election without traverse of the species of Fig's. 1-4 remains.

*Applicant is reminded that if the amendment of any claims results in a change of the species they read upon, that is required to be indicated. In addition, of course, if any new claims are added, it is required that the applicant indicate which of them read on the elected species. Failure to do so will result in a holding of nonresponsiveness.*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 34-37 are rejected under 35 U.S.C. § 102(a), as being anticipated by LaRou. The examiner finds all claimed subject matter to be present.

See Fig's. 1-2.
